Tubing Kayaking Canoeing Trapping Other

Do you know of others ever using the stream in a way where they might have accidentally ingested water? Yes X No If so, how? As all above.

What stretches of the stream did they use? Describe locations as accurately as you can by means of distance from landmarks, bridges, streets, highways, or property lines (example: 150 yards downstream from Hwy EE bridge). Feel free to draw (on back) or include a map.

From east of S. Prospect bridge to property of Harvey Ziegler at 3509 E. 247th St. Cleveland, MO.

Signature Margaret Sauer Date 9/16/88

I just received notice of the proposal that DNR may exempt some streams from sewage treatment requirements. Also, in harmony a smaller tributary overflows the dam that separates the tributary from my farm pond. That pond & the stream are used for fishing, swimming, wading, canoeing, tubing & my dogs drink from there. Thank you.

September 18, 2008

Sirs,

The pollution of the Tuttle Creek tributary shown on the map would be a tragedy for my family. We have had a small house on land bordering the creek for forty years and it has been an important part of our lives. On our regular visits to the farm from March to November a high point has been playing in, and exploring, the creek - in past years for my daughters and now for my grandchildren.

The 120 acres surrounding the creek has been so important to us that I have placed a conservation easement on it. Pollution of the creek would obviously diminish the environmental value of the land.

I hope and trust that the creek can remain unpolluted.

Yours truly,

Dewey K Ziegler M.D.
